

MECHANICAL CONTRACTORS

CMC 056913

From the water cooler to the world trade center
CNS aims to exceed all client expectations.

Commercial, Industrial & Residential

First We Listen.

CNS Industries is in the business of environmental management. HVAC/R systems incorporated into your building were designed to provide for the optimum environment. But for these systems to handle that optimum environment year-round and year-after-year requires regular maintenance, service and upgrades. Simply fixing systems that wear out, or addressing issues one at a time, can be both frustrating and costly. CNS Industries' maintenance programs are designed to help you reduce the cost of operating and maintaining your HVAC/R systems.

Our Market

Our market specific teams of technicians service multiple industries including: Commercial, Retail, Hospitality, Entertainment, Industrial, Manufacturing, Medical, Government, Education, and Refrigeration. Our diverse talent provides you the competitive advantage of a partner that understands and services your entire building system. Over the years we have expanded with our clients as they enter new markets. Servicing a wide range of equipment from specialized fractional horsepower laboratory units to large industrial ice plants, CNS Industries is one of the most respected service organizations with operations in Southwest Florida and beyond.

Our Mission

Since 1997 CNS Industries has been providing the highest level of support and service to our clients who are continuously challenged with finding ways to improve the quality of their environment while simultaneously containing or reducing costs.

Studies have proven that our maintenance programs can help you:

- ➔ Avoid expensive downtime and employee productivity losses
- ➔ Avoid wasted utility costs
- ➔ Extending the useful life of your equipment
